RESPONSE TO RESTRICTION REQUIREMENT  
WITH TRAVERSE

Sir:

In response to the restriction requirement set forth in the Office Action dated March 29, 2005, Applicant provisionally elects Group 1., namely, Claims 1 to 27 and 61. This election is made with traverse.

An application may be properly required to be restricted to one of two or more claimed inventions only if the inventions are able to support separate patents and they are either independent or distinct. MPEP § 803. If the search and examination of an entire application can be made without serious burden, the Examiner must examine it on the merits, even though it includes claims to independent or distinct inventions. MPEP § 803.

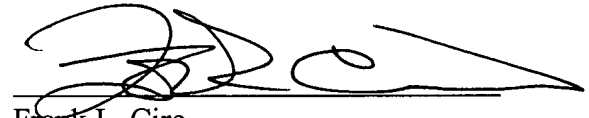

"The term 'distinct' means that two or more subjects as disclosed are related, for example, as combination and part (sub-combination) thereof, process and apparatus for its practice, process and product made, etc., but are capable of separate manufacture, use, or sale as claimed and are patentable (novel and unobvious) over each other (though they may each be unpatentable because of the prior art)." MPEP § 802.01. In this regard, Applicant respectfully submits that the claims of Groups 1., 2. and 3. (as designated in the Office Action) are all generally directed to the field of art concerning controlling and monitoring printers. Accordingly, two-way distinctness is not seen to be present among the claims of Groups 1., 2. and 3. MPEP § 806.05(c).

Even if Groups 1., 2. and 3. are considered to be independent or distinct inventions, which Applicant does not admit to be the case, the search and examination of all pending claims of Groups 1., 2. and 3. can be made without serious burden, and therefore restriction is believed to be improper. MPEP § 803. Specifically, the claims of Groups 1., 2. and 3. are all directed to the field of art concerning controlling and monitoring printers. Accordingly, Applicant respectfully submits that concurrent search and examination of all claims of Groups 1., 2. and 3. can be made without serious burden.

Based on the foregoing remarks, Applicant respectfully submits that the restriction requirement is improper and therefore request reconsideration and withdrawal of the restriction requirement, and the concurrent examination of all currently-pending claims of Groups 1., 2. and 3.

Applicant's undersigned attorney may be reached in our Costa Mesa, CA office at (714) 540-8700. All correspondence should continue to be directed to our below-listed address.

Respectfully submitted,

A handwritten signature in black ink, appearing to read 'Frank L. Cire', written over a horizontal line.
